

## Tillers

Whether you are a dedicated gardener or looking to add to your commercial fleet, Honda offers the smartest lineup of quality tillers in the market with the Mini-Tiller, Mid-Tine, and Rear-Tine models.

Honda Tillers are recognized for their high quality components, commercial grade features, and consumer benefits:

- Easy starting
- Smooth performance
- Quiet operation
- Reliable power

With exceptionally reliable performance, Honda offers the best choice for all your gardening jobs.

## FG110

### Specifications

Type	K1AT
MSRP	\$389
Engine Model	GX25 Mini 4-Stroke
Displacement	25 cc
Gearbox	Worm Gear
Gearbox	1 Fwd
Tilling Width	9 in
Tine Shaft Speed	294 rpm max (no load)
Engine Speed (max)	10,000 rpm
Tine Diameter	8 in
Air Filter	Semi-Dry
Fuel Tank Capacity	0.60 qt
Standard Equipment	Wheel Kit, Drag Bar, Hybrid Digging/Cultivating Tines
Unit Weight-Dry with Drag Bar	24.9 lb, 27.3 lb with transport wheels

### Optional Accessories

- Aerator
- Digging Tines
- Border/Edger
- De-thatcher kit

### Warranty

- **Residential** – 24 months
- **Commercial/Rental** – 12 months
- **Limited Lifetime** on tine breakage (K1)

### Very Smart.

#### Simple

- **Very Lightweight** – Easy to handle for superior cultivating performance

#### Money Saving

- **Mini 4-Stroke Engine** – Durable and fuel efficient GX engine provides greater value and reduced cost over the long run. Very easy to start, no oil or gas mixtures, reduced noise level, and more power.

#### Adaptable

- **9" Adjustable Tilling Width** – Remove outer tines for 6" tilling width (perfect for raised gardens and flower beds).
- **Drag Bar Standard** – Adjustable for better tilling depth control
- **Folding Handles** - Allows for quick and convenient storage.

#### Reliable

- **Honda's 4-stroke engine** – Delivers excellent power and torque, ensuring easy tilling in any condition.

#### Time Saving

- **Hybrid Digging/Cultivating Tines** – Unique design offers superior performance.
- **Convenient Carrying Handle & Transport Wheels** – Allows for quick and easy transport.

## F220

### Specifications

Type	K1AT
MSRP	\$1,049
Engine Model	GXV57
Displacement	57 cc
Gearbox	1 Fwd
Tilling Width	21 in
Tine Speed	138 rpm
Tine Diameter	11 in
Air Filter	Dry Paper
Fuel Tank Capacity	0.69 qt
Transmission Type	Gear Drive
Unit Weight–Dry	53 lb

### Optional Accessories

- Side Disc Kit
- Furrower Kit
- Pick Tine Rotor

### Warranty

- **Residential** – 24 months
- **Commercial/Rental** – 12 months

### Very Smart.

#### Simple

- **Easy Access Control** – Ease of operation

#### Money Saving

- **Durable and Fuel Efficient GXV Engine** – Provides greater value and reduced cost over the long run. Very easy to start.

#### Adaptable

- **Quick Adjust 3-Position Handle** – Quick operation for height adjustment
- **Heavy Duty Fold-Down Handle** – Ease of transport and storage
- **Adjustable Drag Bar** – Provides better tilling depth control under a variety of conditions.

#### Reliable

- **Commercial Design** – For rental and commercial use

#### Time Saving

- **Transport Wheel** – Spring-loaded for easy movement from tilling to transport
- **Staggered Tine Positions** – Tines always contact the ground for efficient and smooth operation.

## FC600

### Specifications

Type	K2
MSRP	\$1,499
Engine Model	GX160H1 OHV (K2)
Displacement	163 cc
Transmission	Chain and gear drive
Transmission	1 Fwd
Tilling Width	24.8 in
Tine Speed	84 rpm
Tine Diameter	13 in
Air Cleaner	Dual Element
Fuel Tank Capacity	2.5 qt
Unit Weight-Dry	128 lb (K2)

### Optional Accessory

- Furrower Kit

### Warranty

- **Residential** – 36 months

- **Commercial/Rental** – 36 months

### Very Smart.

#### Simple

- **Easy-Access Controls** – Ergonomically designed for comfortable operation.

#### Money Saving

- **Commercial-Grade GX160 OHV Engine** – Superb power, fuel efficient, and long life
- **Side Disc Standard** – Helps prevent dirt, rocks, and debris from being thrown into other vegetation.

#### Adaptable

- **3 Adjustable Handle Positions** - Wide range of heights for operator comfort and control
- **Drag Bar** – Adjustable for better tilling control
- **Transport Wheel** – “One touch, no tool” adjustment, easy movement from tilling to transporting

#### Reliable

- **Aluminum Transmission Case** – Helps keep the inner-workings cooler.
- **Double-Lipped Tine Shaft Seals** – Better protection from leakage and dirt intrusion
- **Front Engine Guard** - For protection and durability

#### Time Saving

- **Staggered Tine Positions** – Tines always contact the ground for efficient and smooth operation.

## FRC800

### Specifications

Type	K1A
MSRP	\$2,699
Engine Model	GX240T2 OHV
Displacement	270 cc
Transmission	Chain and gear drive
Transmission	3 Fwd – 1 Rev
Tilling Width	20 in
Tine Speed	232 rpm
Tine diameter	12 in
Air Cleaner	Dual Element w/ Cyclone Air Filter
Fuel Tank Capacity	4.6 qt
Unit Weight–Dry	265 lb

### Optional Accessory

- Furrower Kit

### Warranty

- **Residential** – 36 months
- **Commercial/Rental** – 36 months

### Very Smart.

#### Simple

- **Easy-Access Controls** – Conveniently located within operator reach.
- **Single Shift Lever Controls Both Gear Selection and Tine Engagement** – Easy for 1st-time users

#### Money Saving

- **Chain and Gear Drive Operation** – Smooth, quiet performance, and longer tilling life

#### Adaptable

- **4 Adjustable Handle Positions** – Wide range of heights for comfort and control
- **Full Loop Clutch Lever** – Allows for operation from left, right, or center.

#### Reliable

- **Designed Specifically for Commercial/Rental Users**
- **Commercial-Grade Engine** – Superb power and long life
- **Protective Front Guard** – Helps to prevent damage while offering convenient tie-down points for transport.
- **Large Diameter Tires with Deep Lugs** – Offer excellent traction.

#### Time Saving

- **20" Tilling Width, 12" Tine Diameter** – Make quick work of large tilling areas.
